PROFILE SUMMARY

I'm a passionate and detail-oriented web developer with a background in Computer Engineering. I've worked on several academic and personal projects where I gained hands-on experience in front-end technologies like HTML, CSS, JavaScript, and Bootstrap, as well as PHP for backend development. I'm now looking for an opportunity where I can grow, contribute, and turn my skills into real-world impact.

INTERNSHIP EXPERIENCE

Codizious Technologies

Web Development

- Collaborated with a development team to design and develop responsive websites using HTML, CSS, JavaScript, and Bootstrap.
- Assisted in developing front-end features and enhancing Bootstrap for client projects.
- Developed a responsive web-based cafe management system as part of internship. Applied frontend technologies like HTML, CSS, JavaScript, and Bootstrap.

PROJECT WORK

Music Player Web App

- Technologies Used: HTML, CSS, JavaScript, MySQL
- Developed a responsive web-based music player that allows users to play, pause, skip, and manage audio tracks.
- Implemented core music playback functionality (play, pause, skip, loop, volume control) using JavaScript.
- Integrated MySQL to store user playlists and song metadata.
- Enabled dynamic loading of music data from the database.

Car Racing Game

- Developed an interactive 2D car racing game playable in web browsers. Implemented core game mechanics such as car movement, obstacle spawning, collision detection, and score tracking using JavaScript.
- Styled the game interface with responsive CSS for an engaging user experience.
